

Medical Emergencies Response Training with BLS, AED and Airway Management

Medical Emergencies Response Training is an advanced qualification aimed at preparing you to respond to a variety of critical medical emergencies. This course has the added benefit of providing practical training in Airway Management with the appropriate equipment.

This cost-effective, six hour course exceeds the core competencies as laid down by the UK Resuscitation Council and is the most comprehensive Medical Emergencies Response Training course in the UK.

Our students will learn about:

- The importance of early recognition of a critically ill patient
- The causes of cardiorespiratory arrest
- Basic Life Support and The ABCDE Approach
- Ventilation of a patient using a pocket mask / face shield
- Automated External Defibrillation and AED Safety
- Practical airway management (Airway Management course only)
- The Chain of Survival
- Emergency Oxygen Administration

Price includes:

- Professional Instruction
- All course materials
- Glossy A5 AED user manual
- Certificate of attendance, valid for 3 years
