

# RLSS UK Emergency Response Pool Course

By the end of the course learners will understand their roles in responding and rescue. They will know their responsibilities, the importance of maintaining standards, employer's role and the uniform and equipment requirements.

Candidates will also learn Health & Safety law and policies which relates to their potential roles. They will also learn about what can be expected from the environment following completion.

## Course Features

- High-quality training
- First Aid training including CPR and life-saving skills
- Level 1 equivalent qualification
- Emergency Response Pool certificate upon successful completion
- Physical training
- Theoretical classroom work
- Practical in-water & out-of-water assessment on pool rescue

## Topics Covered

The ER qualification & course is provided by RLSS UK, the content is split over 4 areas:

- Pool Safety Theory
- Life Support
- Emergency First Aid
- Water Rescue Skills

Candidates who have previously completed the Emergency Response Pool course may undertake a 7 hour refresher course. This may be followed up with a review at the end of the 7 hours, along with a set of face-to-face questions and a demonstration of practical skills.
